

**PREMIER GROUP ANNOUNCES STRATEGIC PARTNERSHIP AGREEMENT  
WITH GOOD TECHNOLOGY TO DELIVER WIRELESS, MOBILE SOLUTIONS TO  
THE JD EDWARDS MARKET THROUGHOUT THE AMERICAS**

**FOR IMMEDIATE RELEASE**

*Agreement brings Good Technology's leading wireless handheld computing solutions to Premier's JD Edwards customers in U.S., the Caribbean and Latin America*

**CORAL GABLES (April 25, 2005)**— Premier Group (Premier), a leading international provider of enterprise business solutions, including enterprise software, enabling technology solutions, and management consulting services in the United States, the Caribbean and Latin America, announced today a strategic alliance with Good Technology, Inc. (Good) resulting from its acceptance into the Business Partner Program.

Good Technology is the leader in wireless handheld computing software and service, using industry standards to provide the corporate applications enterprises need on the handhelds they choose over the networks they prefer. The GoodAccess and GoodLink products extend mission-critical enterprise applications—including Microsoft Exchange, JD Edwards, Oracle, salesforce.com and Siebel—to mobile employees when and where they need them.

Catering to the mobile professional, the Good System includes messaging and corporate data access, as well as a full suite of management features and functions. We offer customers unsurpassed flexibility by allowing them to choose their wireless carrier(s), platform(s), network(s), and device(s). Specifically, we support Palm, Pocket PC, and Symbian operating systems, the latest handheld devices and smartphones that run them, and nearly every wireless carrier, all over the world. Plus, our integration with third-party applications lets our customers view, edit, and interact with documents and attachments, providing the most complete laptop-like experience.

As a JD Edwards Channel Partner, Premier will now offer Good wireless computing solutions to its extensive JD Edwards customer base and other companies in its target geographic territories. Further, using GoodAccess which enable wireless handheld, mobile solutions, Premier will expand its SmartCommerce product offerings for JD Edwards to incorporate mobile, wireless capabilities that streamline processes and increase productivity for its customers.

“Good products are known for their standards-based architecture that supports all leading mobile handheld technologies, operating systems and networks. Our partnership with Good enables Premier to offer the market-leading GoodLink wireless messaging solution and allows us to leverage GoodAccess to deliver wireless-enabled, mobile capabilities to our JD Edwards and SmartCommerce” indicated Fermin Rodriguez, Managing Director of Premier.

**About Premier Group**

Premier Group, based in Coral Gables, Florida, is a leading international provider of enterprise ecommerce solutions comprised of enterprise software, enabling technology solutions and management consulting services. Through its SmartCommerce product line, Premier offers robust business solutions, addressing areas such as credit card processing, e-commerce and retail point of sale (POS), that can be easily integrated with JD Edwards and other customer technologies and can be rapidly deployed on a fixed-time and fixed fee basis.

As a JD Edwards Channel Partner, Premier represents JD Edwards enterprise software in over a dozen countries in the Americas. We currently serve our customers through in network of offices in the United States, the Caribbean and Latin America. For more information, visit [www.premierway.com](http://www.premierway.com).

## **About Good Technology**

Good Technology is the leader in wireless handheld computing software and service, using industry standards to provide the corporate applications enterprises need on the handhelds they choose over the networks they prefer. The company's GoodAccess and GoodLink products extend mission-critical enterprise applications--including Microsoft Exchange, Oracle, salesforce.com and Siebel--to mobile employees when and where they need them, using end-to-end AES encrypted, FIPS-certified security, and cradle-free, real-time synchronization. GoodLink and GoodAccess are combined enterprise software and service that run on a variety of devices and networks, freeing customers from vendor lock-in, and allowing maximum flexibility. Good Technology is located in Santa Clara, California. For more information, visit [www.good.com](http://www.good.com).
